

Ronel Abraham Mathew

Bachelor of Technology in Computer Science and Engineering
Karunya Institute of Technology and Sciences, Coimbatore
+91-77366 49500 | ronelabrahammathew@gmail.com | GitHub | Website | LinkedIn

EDUCATION

Degree/Certificate	Institute/Board	Year
B.Tech, CSE	Karunya Institute of Technology and Sciences	2025–2029
Senior Secondary	Mar Gregorios Memorial Residential Public School (CBSE)	2025

EXPERIENCE

- Karunya Innovation and Design Studio** *Dec. 2025 – Present*
AI Engineer Trainee
Coimbatore, India
 - Developing agentic AI systems and generative AI prototypes focusing on autonomous tool-using agents and multi-step reasoning workflows.
 - Collaborating on AI research projects, including context-tracing agents, LLM orchestration, and structured evidence synthesis for production-grade applications.
- Google Developer Group on Campus Karunya** *Oct. 2025 – Jun. 2026*
Technical Trainee
Coimbatore, India
 - Participated in code reviews, collaborative coding sessions, and technical discussions to support project execution.
 - Assisted with event technical requirements including registration systems, documentation, and platform setup.

PROJECTS

- Gremlin** *Jul. 2026*
GitHub
 - Built an autonomous testing agent that explores a Flutter app like a confused user and files a reproducible bug report every time the framework’s own logs report a failure.
 - Split detection from exploration: a vision model decides where to tap while exact `logcat` signal-matching decides what is broken, eliminating hallucinated bug reports.
 - Developed a React console with live WebSocket run streaming, trace replay, bug reports, and a Monkey-baseline benchmark, served by a FastAPI backend.**Tech Stack:** Python, FastAPI, React, Gemini, Groq, adb/Android, Claude CLI
- Scribe** *Mar. 2026*
GitHub
 - Built a cross-platform Flutter app that records meetings, transcribes audio locally, and generates AI summaries covering decisions, action items, and key highlights in seconds.
 - Implemented on-device transcription via Groq Whisper with automatic language detection and translation, plus Llama 3.3-powered summarization over the raw transcript.
 - Added a meeting scheduler with reminders, full-text search across recordings, folder-based organization, and PDF export, backed by Supabase auth and edge functions.**Tech Stack:** Flutter, Dart, Groq Whisper, Llama 3.3, Supabase, NLP

TECHNICAL SKILLS

- Programming:** Python, C, Dart
- Tools & OS:** n8n, PostgreSQL, Redis, Docker, Git, Linux
- Libraries/Frameworks:** Flutter, LangChain, LangGraph, RAG, OpenCV, FastAPI, Flask
- Web:** HTML, CSS, JavaScript, React

ACHIEVEMENTS

- Digital Campus 2.0 Hack Sprint** *Oct. 2025*
Google Cloud × GeeksforGeeks
Round 2 Qualifier
Engineered a gamified educational platform with real-time leaderboards, interactive quizzes, and multi-role progress tracking.
- Smart India Hackathon 2025** *Sept. 2025*
Government of India
University Shortlist
Built a low-bandwidth, gamified STEM learning platform with multilingual support and teacher analytics.

CERTIFICATIONS

- Cloud Digital Leader– **Google Cloud**
Skills: Artificial Intelligence (AI), Cloud Computing, Cloud Security, Data Governance, Google Cloud Platform (GCP)
- Implement CI/CD Pipelines on Google Cloud – **Google**
Skills: Google Cloud, CI/CD, Cloud Build, Artifact Registry, Cloud Run, DevOps
- Prepare Data for ML APIs on Google Cloud – **Google**
Skills: BigQuery, Cloud Storage, Vertex AI, Data Preprocessing, Google Cloud ML APIs
- Oracle Cloud Infrastructure 2025 AI Foundations Associate – **Oracle**
Skills: Oracle Cloud, AI/ML Concepts, Generative AI, LLMs, Cloud Infrastructure
